THE DYNAMIC SOCCER MATCH

Measure yourself in the game – **one** on **one** or as a team - with **two** and **two** - give it all!

Play with your power. Even if you don't have strong muscles nothing is lost - it's all in the mix! Tactics, cleverness and promptness used at the right time bring you back into play – and the ball into the opponent's goal.

Face to **F**ace - the point is to find the winner or winning team with the “**most clever muscles**”.

EVERYBODY PLAYS IT – EVERYBODY LOVES IT

MukKi – the soccer board stands for pure entertainment, power and fun – at home, club houses, changing rooms, kindergarten and school. For ages from 3 to 99.

Specification: solid beech, base board multiplex birch wood approx. 57 x 45 cm, weight 1,6 kg

It is guaranteed that each boring soccer match becomes a minor matter.

Spirit **e**nthusiasm
thrill **S**weet strength
fun **a**scination
release
aggressions

SIMPLE RULES – EASY TO COME INTO PLAY

Hold the board freely, do not support your arms with your body or anything else. In the beginning the players decide on the number of goals to win. To start off and after each score the ball will be positioned at the kick-off point. Players take turns when kicking-off. MukKi will be played –it's make or break – though the latter won't happen if rules are being followed.

Annotation: MukKi is a German colloquialism for strong and fit muscles.
